# Legacy of Innovation, Vision for the Future

#### **Our mission**

# Advancing the power of diagnostics for a healthier future for all

Powering a healthier future for all starts with our employees. With passion to serve and drive to succeed, we are united in our mission, deeply committed to each other and accountable to the customers, patients and communities who put their trust in us every day.

## We Lead With a Culture of Care

# Thrive Together

Imagine. Create. Transform.

# Make It Happen

Prioritize, Execute, Achieve,

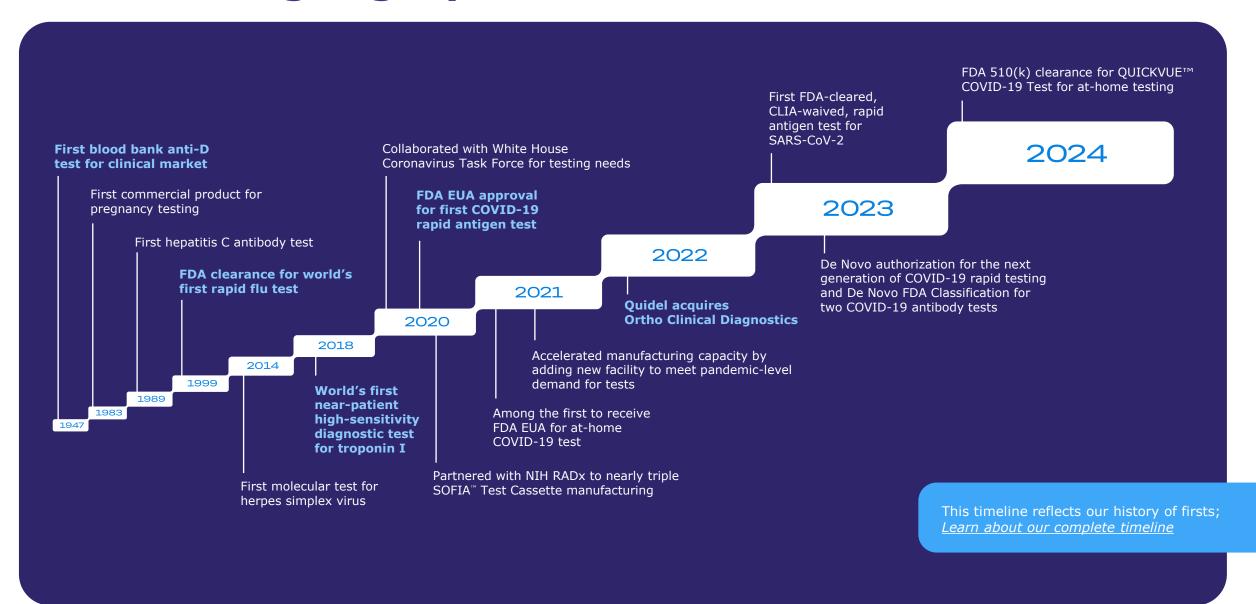

# Commit To Service

Colleagues. Customers. Community.

# Embrace Inclusion

Be open. Be authentic. Be you.

## With a Strong Legacy of Innovation and Proven Results

## **Excelling as a Global In Vitro Diagnostics Company**

Trusted by ~75,000 customers in over 140 countries

## With a Global Manufacturing Footprint

Providing optimized operations to meet customer demands

#### **U.S. West**

#### San Diego, CA

#### Products:

QUIDEL™ TRIAGE™ System QUICKVUE™ Tests SOFIA™ Analyzer

#### Distribution:

U.S. and Global distribution of point-of-care and molecular products

#### **U.S. Central**

#### Athens, OH

#### **Products:**

LYRA™ Assavs SOLANA™ Platform MICROVUE™ Products FRESHCELLS™ Cell Lines, ELVIS™ Test System, D<sup>3™</sup> Products and THYRETAIN™ BioAssays

#### Distribution:

U.S. and global distribution of FRESHCELLS Cell Lines

#### U.K.

#### Pencoed, Wales

#### **Equipment and Products:**

BIOVUE™ System MicroWells

#### Strasburg, France

#### Distribution:

EMEA distribution of all product lines

#### **U.S. East**

#### Rochester, NY

#### **Equipment and Products:**

VITROS™ MICROSLIDE™ Technology, MicroWells, MicroTips, Cals and controls, supporting Fluids, and recertified VITROS Systems

#### Raritan, NJ

#### **Products:**

Reagent Red Blood Cells and Antisera

#### Pompano Beach, FL

#### Products:

ID-Micro Typing System (ID-MTS™) Gel Test

#### Distribution:

U.S. and global distribution of transfusion medicine and clinical labs products

#### **ASPAC**

#### **Hunan, China**

#### **Equipment and Products:**

**VITROS Systems** 

#### Distribution:

China local distribution of all product lines

Intelligent diagnostics hold the power to unlock this healthier future

## **Our Diagnostic Portfolio Spans the Continuum of Care**

With products for every care setting and every stage of the patient journey

Reference Labs			Hospitals		An	nbulato	ry Clini	cs & Specialty Settings				Retail	Home
Reference Labs	Public Health	IDN Core Labs	Large Hospital	Small-Med Hospital	Micro- Hospital	Free Standing ER	Physician Office	Urgent Care	Surgical Care	OB-GYN	Sexual Health Clinic	Consumer-Oriented Ambulatory Network	OTC Self Testing

Transfusion Medicine													
	Point of Care												
Molecular													

Supporting our entire portfolio with customtailored solutions at every customer touchpoint

#### Our QuidelOrthoCQ Commitment

Committed to building a lasting partnership. Through our culture of care, we make every interaction efficient and impactful, prioritizing what matters most: helping you make informed health decisions.

# QuidelOrthoCQ

QuidelOrtho Care Quotient is a measure of our commitment to our customers' overall experience, giving you the freedom to focus.

Learn about our QuidelOrthoCQ Customer Experience Program

Powering up labs and transforming global health, one community at a time

#### Our Labs Portfolio

To meet the changing needs of diverse populations, we empower labs, doctors, health networks and governments with the accuracy, insights and technologies that enable more informed decision-making and coordinated community care

**VITROS™** Automated Testing **Solutions** 

Flexible and scalable automation solutions for labs of all sizes

**VITROS™ Systems** Clinical diagnostic testing systems that deliver fast,

accurate, reliable test results for the clinicians and patients who need them

Learn about our complete Labs offerings

Activating global health intelligence when life itself is at stake

#### Our Transfusion Medicine Portfolio

As the global leader in immunohematology, we connect and activate a world of serological expertise and data to defuse risk, optimize matches and deliver safe transfusions

**ORTHO OPTIX™ Reader** Semi-automated pre-transfusion card reader designed to automate reaction grading and elevate labs' performance to higher levels

**ORTHO VISION™ Analyzers** Automated pretransfusion testing platform that automates over 99% of workload in the blood bank without compromising turnaround time

**ORTHO™ Workstation** Paired with the Ortho OPTIX Reader, provides a complete semi-automated testing platform, with combined incubation and centrifugation to provide an even smaller footprint in the lab

Learn about our automated Transfusion Medicine offerings Learn about our semi-automated Transfusion Medicine offering

Delivering on-demand testing and actionable results, whenever and wherever they're needed

#### Our Point of Care Portfolio

From at-home tests with digital support services to compact solutions that optimize throughput in diverse settings - we deliver reliable results when you need them most

**OUICKVUE**<sup>TM</sup> **COVID-19 Test** Accurately detects the SARS-CoV-2 Omicron variant (among others)

**OUICKVUE**<sup>TM</sup> **Rapid Lateral-Flow Tests** A family of rapid, visually read, lateral-flow tests to produce accurate results in minutes

**SOFIA™ 2 Platform** Small bench-top analyzers that take rapid testing to a new level using proven lateralflow technology and advanced fluorescence chemistry

**QUIDEL™ TRIAGE™ System** Comprehensive test menu that provides the diagnostic answers needed to assist in making rapid, costeffective treatment decisions

Learn about our complete Point of Care offerings

Providing pinpoint precision to see the unseen

#### Our Molecular Diagnostics Portfolio

Using the building blocks of life to develop platforms that aid in the rapid delivery of treatments, we are aiding in diagnostics, from rural clinics to big city health systems

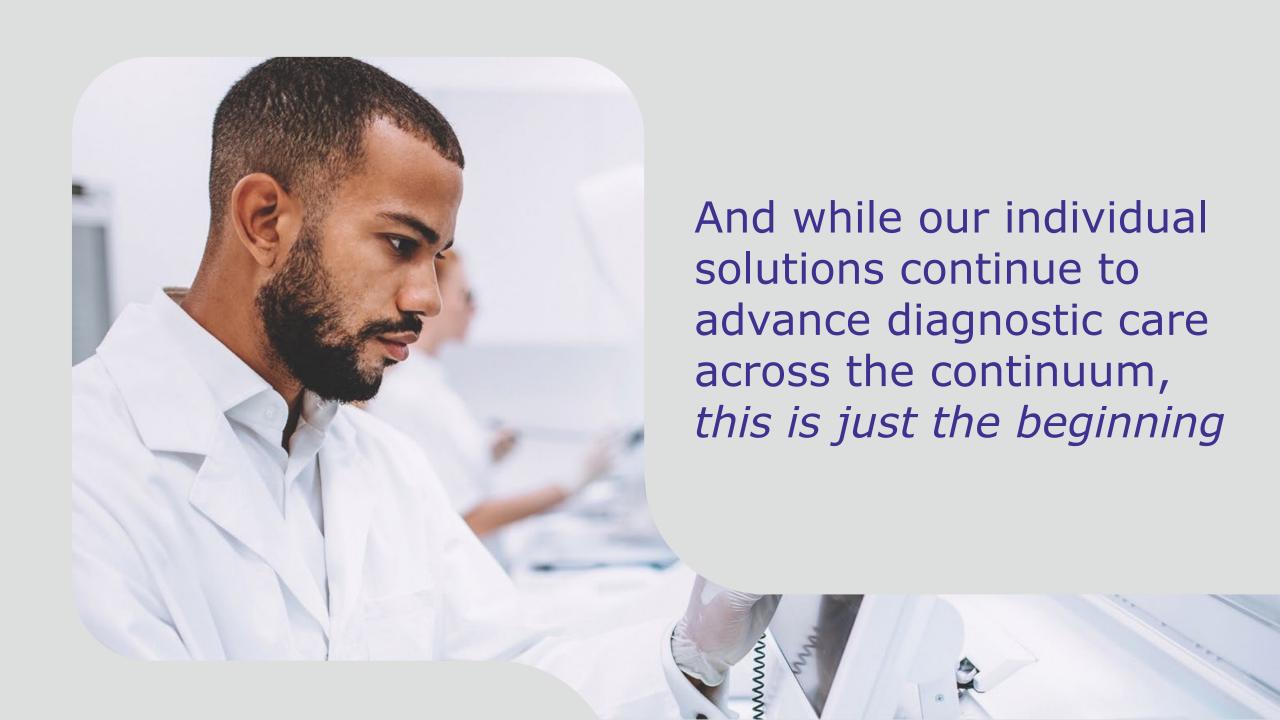

LYRA™ **Real-Time PCR Assays** Open platform, highthroughput molecular testing solutions that detect and identify infectious diseases with minimal steps

**SOLANA™ Molecular Testing Platform** Simplified platform that uses our proprietary helicase-dependent amplification (HDA) with fluorescence detection to make diagnosing infectious diseases faster and easier than before

Learn about our complete Molecular Diagnostics offerings

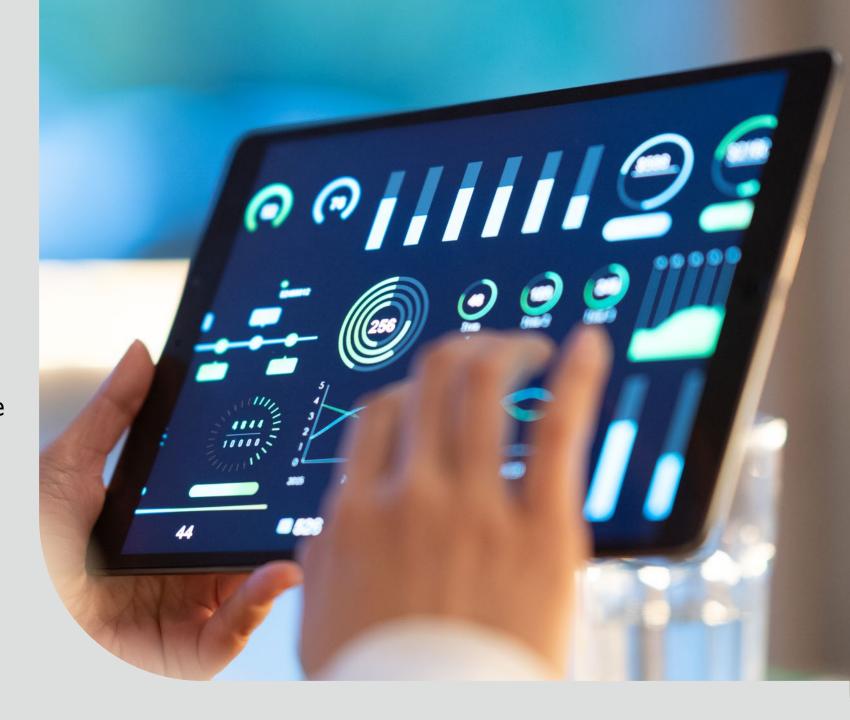

Together, we are advancing the power of diagnostics for a healthier future for all, where we ...

#### **Connect Systems Seamlessly**

Data and intelligence are shared across ecosystems from the point of care to lab, clinic to hospital, clinicians to health systems, enabling a more complete picture and informed path to be illuminated for us all

### **Build and Invent Together**

Allowing ideas to collide from across the continuum to anticipate and address the complex needs of a rapidly changing healthcare environment

## **Converge Capabilities**

Where insights and solutions know no bounds, and the best of our science, technology and innovation is unleashed to answer new needs and offer new possibilities

From the point of care to hospital, lab to clinic, we provide diagnostic solutions, delivering fast, accurate and reliable results that help improve informed healthcare decisions.
